Merry Christmas 2018

‘There’s a better way to eat Together’

“Preparation is really the key to a stress free Christmas – knowing what you can prepare ahead and knowing when to outsource or delegate”

Christmas – although busy is our favourite time of year. Perhaps its because we make an effort to come together and spend time with those important to us. We are so pleased to release our Christmas products for 2018 - as we enter our 10th year, we have been reflecting on how many of your Christmas feasts and shared tables, picnics and suppers you have let us be part of.

This year we have focused on trying to bring you an even more authentic product with some beautiful reusable packaging such as **Salmon Rillettes** in terracotta pots and **Jambon Persillé** in classic French swingtop Le Parfait jars. Creating products that hopefully you’ll want to share too

Our **Christmas Feast in a Box** is full of everything you could possibly need to entertain the crowds without having to toil over a hot stove

But our hero, again will be our eye catching centrepiece – **The Great Pie** – is there anything more generous or satisfying than carrying a burnished pie to the middle of a table

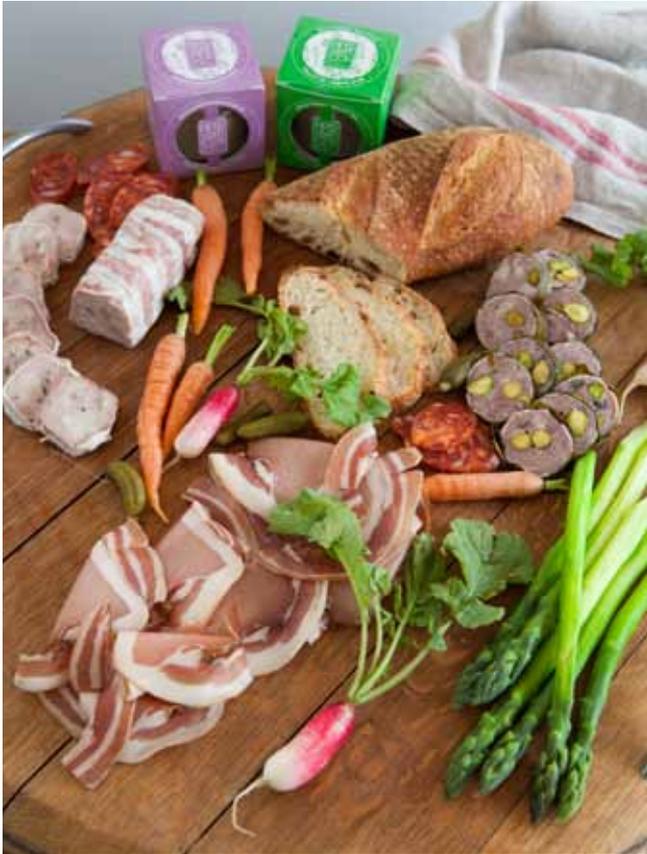

Our fridges will also be full of all our beautiful **pâtés, terrines & rillettes** – as well as local cheeses, fruit pastes, crispbreads & condiments

We are pleased to be offering the best local free range **Christmas Ham** from Ballarat’s Salt Kitchen Charcuterie again this year

So thank you for once again allowing us to be part of your festive tables and gatherings. Hopefully you are creating new traditions that make this Christmas simple but still special by having food that is ready to serve and share for any occasion – that way you can enjoy Christmas too.

Merry Christmas
Damian & Bryanna

Please see order form for full selection.

Everything is hand made here at Piper St Food Co using traditional recipes and the best local ingredients

THE CENTERPIECE

The Great Christmas Pie

To Serve:

Our pie does not need too much fussing but we have heard that a wreath created around the outside of the pie from pickles, leaves and condiments can look fresh and festive. Think witlof, cherries, pickled onion & cornichons.

The Victorian's brought pie making and pie sharing to new extravagant heights.

An ornate pie in the middle of the table was something to be admired and envied. A treasure chest stuffed with delicacies – and sometimes even the entertainmentif there was a celebration, there would be pie.

Our beautiful, delicious **Great Christmas Pie** is a tribute to the English tradition of hand raised 'Pyes' that have graced many festive tables.

Our Great Christmas Pie is made with pork and game, pistachios and figs, festive spices and a port wine jelly. It is served cold from the table as an eye catching centrepiece.

The Great Christmas Pie is best served at room temperature which makes it the perfect entrée or Boxing Day lunch. It also makes a welcome gift to your host – and if picnics are more your style then this pie loves to travel
